STAT

3. [redacted] informed me that they had received

a written complaint from the State Department that we had apparently made available to the Senate Internal Security Subcommittee a confidential

STAT biography of [redacted] in connection with the Khokhlov

STAT hearings. I pointed out to [redacted] that he had requested the material on

STAT [redacted] from State for the specific purpose of making it available to the Jenner Committee for background information, but in view of the fact that it was confidential, Mr. Mandel of the Committee staff had asked the Biographic Division in State for material the Committee could release to the press in connection with the hearings. *28 May 1954*
